
“Since 2010, the Massachusetts
Self Storage Association

*has been the proud
beneficiary of SSA’s
guidance and direct help
in our legislative efforts*

toward updating our lien law and
adopting our tenant insurance law.
This would not have happened without
the leadership of Tim Dietz, Marcus
Dunn and Carlos Kaslow. Associations
matter, and we in the self storage industry
have a great one. Thank you SSA.”

Michael Kane

Owner, 126 Self Storage
Massachusetts Self Storage Association
(MASSA)

“My involvement on the SSA Board developed because of the successful efforts of Michigan’s SSA working together with the national SSA. We defeated a sales tax, passed an exemption for tenant insurance, and created one of the very best lien laws in the country. We were one of the first to eliminate the unnecessary, outdated, and expensive requirements to publish auction notices in newspapers and to allow electronic mail delivery of lien notices.

These critical changes would not have gotten done without the help and affiliation of the national SSA.”

Jon Hutto
Managing Member
Country Storage LLC

“It’s easy to take a great industry for granted. We have been fortunate to be in the self storage business, and the SSA has been a positive contributor since its inception.

Whether it’s addressing legislative issues or offering quality education, the SSA works tirelessly to improve our industry.

The SSA has successfully lobbied several dozen states for improved laws on tenant insurance, communication with tenants and the lien process, which significantly improves our bottom line. SSA has great leadership, and we have been proud members for more than 20 years.”
